Education Statistics in Kosovo 2018/19

Prishtina, June 2018
Education Management Information System

Foreword

The annual publication of Education Statistics for the academic year 2018/2019, published by the Ministry of Education, Science and Technology (MEST) and the Kosovo Agency of Statistics (KAS), as a main purpose has to inform decision-making institutions and the general public with statistical information related to statistical indicators of education.

This publication contains statistical data for preschool / pre-primary institutions, primary and lower education, for upper secondary education, special education, and statistics for higher education (university). The source of data for pre-university education is the Education Management Information System (EMIS). In a lack of EMIS extension, data on education statistics of the Serbian community, with the exception of the municipality of Kamenica, are collected by KAS through questionnaires of education statistics by level. Whereas data on public and private higher education are collected by KAS.

MEST and KAS are grateful to all those who have contributed to the preparation of this publication.

The publication of Education Statistics 2018/2019 can be found on the MEST website: <http://masht.rks-gov.net/> and on KAS website: <http://ask.rks-gov.net/>

This publication was prepared by:

Enver Mekolli- MEST

1. Introduction

The publication of Education Statistics 2018/2019 is a joint publication of cooperation between the Ministry of Education, Science and Technology (MEST) and the Kosovo Agency of Statistics (KAS). The source of data for pre-university education is the Education Management Information System (EMIS). Data on education statistics of the Serbian community that were not under EMIS scope, except for the municipality of Kamenica, are collected through education statistics questionnaires by level. The northern part has not reported data on education statistics although there were constant efforts from KAS to collect these data.

Data on public and private higher education are provided by the Kosovo Accreditation Agency. The publication of Education Statistics 2018/2019 can be found on the MEST website: <http://masht.rks-gov.net/> and on KAS website: <http://ask.rks-gov.net/>.

1.1. Description

The publication of Education Statistics 2018/2019 contains data on:

- the number of children in preschool and pre-primary education by gender, nationality, age group and educational staff,
- the number of pupils in primary and lower secondary education by gender, nationality, grade and educational staff,
- number of pupils in upper secondary education by gender, nationality by vocational schools-gymnasiums and educational staff,
- number of pupils in special education by gender, grade and by types of impairment-difficulty,
- number of students in higher education by gender, nationality, faculties - study programmes, by bachelor and master level, number of graduates in bachelor and master level and academic staff, etc.

Data on education cover the public and private sector with the exception of some Serbian schools that have not reported data.

1.2. Definitions

Pre-school education

The level of preschool / pre-primary education presents the level 01 and 02 according to the adaptation to the definitions of the ISCED (International Standard Classification of Education).

Level 01: Presents early development and childhood education from age 0 to 3 years old.

Level 02: Pre-primary education, age 4 to 6 years old.

Compulsory education

Compulsory education presents levels one and two according to the International Standard Classification of Education (ISCED). Primary education is classified as level 1 (grades 1-5) and level 2 is lower secondary education (grades 6-9).

Compulsory education at the country level functions in public and non-public schools (licensed).

Primary education level

Primary level lasts 5 years, starting from the first to the fifth grade (1-5).

At this level, children who are 6 years of age are enrolled. The age group of pupils at this level is from age 6 to 10 years old.

Lower secondary education level

Lower secondary level extends from sixth grade to ninth grade (6-9).

The age group of pupils at this level is between the age 11 and 14 years old, not calculating those who repeat the grade and pupils with disabilities.

Upper secondary education level

Upper secondary education presents the level three (3) according to the International Standard Classification of Education (ISCED) and functions in secondary public and non-public schools (licensed).

Based on the goals and the content these schools are organized in gymnasiums and in vocational schools.

Upper secondary schools (gymnasiums and vocational schools) are profiled schools. Gymnasiums are allocated according to directions in: social, general, natural sciences, mathematics-computing and languages.

While secondary vocational schools are allocated according to the following directions: technical, agricultural, economics, medical, music, trade, theological, art and competence centers.

Higher education (university) level (5 and 6) according to ISCED (International Standard Classification of Education) is organized as follows:

First level - three (3) to four (4) years of study with which the student reaches 180, respectively 240 credits / ECTS and obtains Bachelor's degree,
Second level - one (1) to two (2) years of studies after the end of the first level with which the student reaches 60, or 120 credits / ECTS and the student receives a Master's degree.

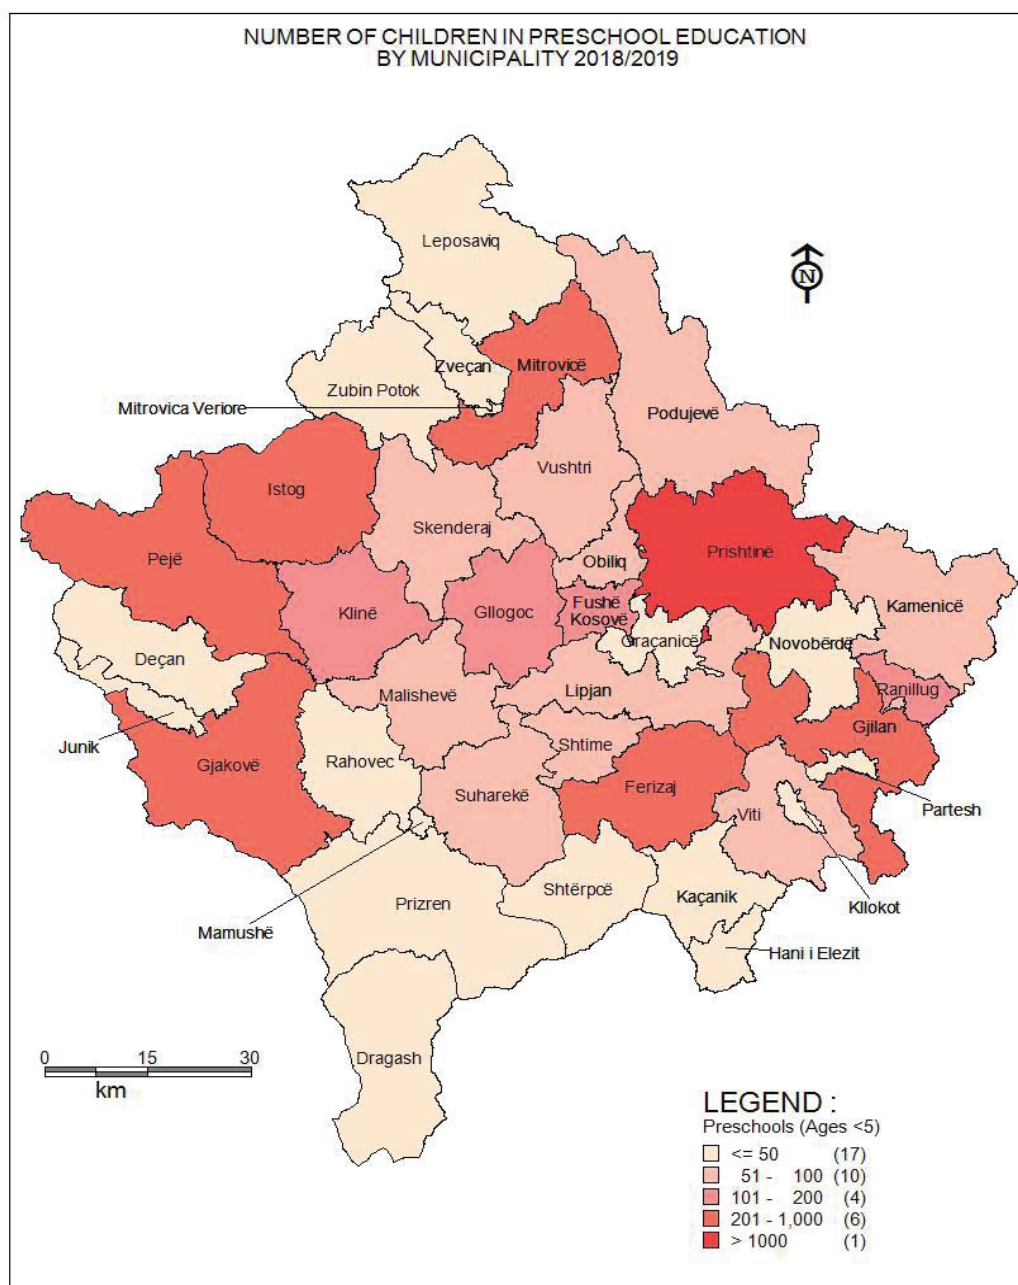

Third level - doctoral studies programmes of academic character and independent scientific research.

Higher education can be conducted on a regular basis, with correspondence.
Providers or holders of higher education may be public providers (universities established by the Government) as well as private providers of higher education (private colleges) licensed by MEST.

Methodology

The data collection for pre-university education is done through the Education Management Information System (EMIS) with the exception of some Serbian schools where the data have been collected by the Kosovo Agency of Statistics (KAS) through questionnaires.

Data on public and private university education have been collected by the Kosovo Agency of Statistics in cooperation with the Kosovo Accreditation Agency.

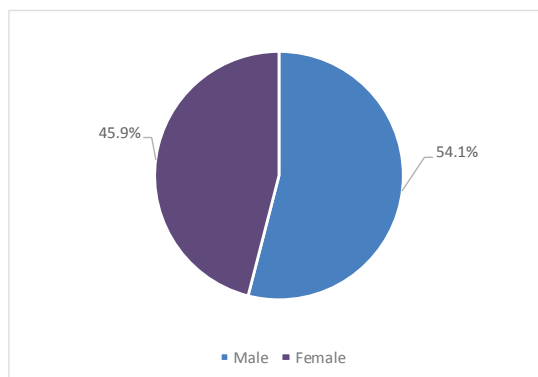

2. Pupils in public education

2.1. Number of children in preschool education

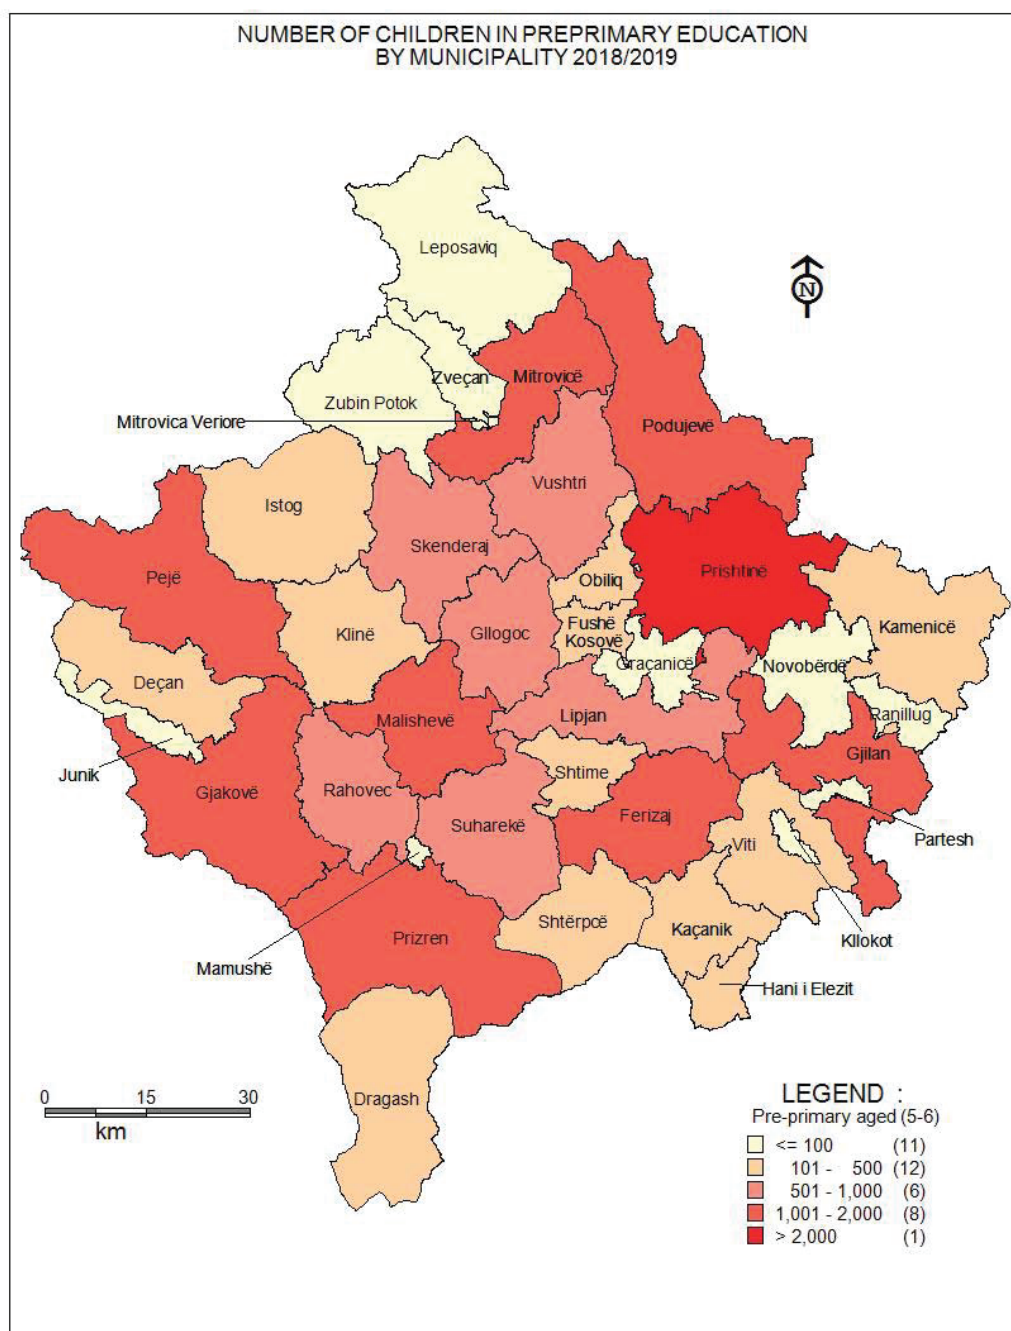

This level of education includes children aged 0 up to <5 years old.
